OUR EQUIPMENT

Tried and Tested

F45 is a system based on high intensity interval training. The range of equipment provided in this package is designed around the programming and is an essential part of your studio setup.

A strong franchise requires uniformity and a standard look and design, whether you are in Australia or any of the international locations. Consistency of branding and equipment allows F45 to differentiate ourselves from the competition and attaches a sense of quality in the mind of the consumer.

F45 have a ready-to-go supply of branded equipment, that can be shipped directly to your studio door.

The products within this range have been tested by F45 to ensure that they meet stringent requirements and industry best standards, however, it is your responsibility to ensure correct installation and maintenance of the products, and inform your clients of proper equipment usage and handling. We recommend that you as the franchisee conduct regular equipment audits to ensure that all your products are correctly maintained and replaced as required.

This brochure also contains responses to many commonly asked questions so please take the time to read this information carefully.

F45 has compiled an equipment schedule based on years of experience – the equipment package is also constantly evolving and expanding based on new workouts and developments. Individual items can be purchased as required if your products need to be refreshed or need to be replaced outside of the warranty period.

View your Franchise Agreement for full details of your package.

TRAINING EQUIPMENT - STRENGTH & CONDITIONING

Kettlebells

Competition kettlebells, no matter what the weight variation, remain the same in size and appearance and are only differentiated by the color variation specified by F45 HQ. It is a specifically designed item that has been around for a long time and has gained popularity over the past few years and used for agility style exercises (ground based rolling), heavy strength training (jerks, presses, squats, carries), grip training and ground work such as renegade rows and pushups. It is a very versatile tool in any dynamic strength and conditioning program.

- Unpainted handles allow you to grip the handle with more slip resistance with or without gym chalk
- All weights are identical in size giving you an easy transition when increasing weight
- The stainless steel construction is far superior to steel models as it requires no maintenance and the handles will not rust after use

KETTLEBELL 18 lb / 8 kg

KETTLEBELL 26 lb / 12 kg

KETTLEBELL 36 lb / 16 kg

KETTLEBELL 44 lb / 20 kg

KETTLEBELL 53 lb / 24 kg

TRAINING EQUIPMENT - STRENGTH & CONDITIONING

Battle Ropes

The ropes are heavy and require an anchor point for mounting. Along with improving your cardio abilities, they will also provide you with a killer workout strengthening your abs, legs, arms, shoulders with little impact and strain on your body. A key piece of equipment for high intensity training.

- **ALL BATTLE ROPES NOW COME WITH AN UPDATED METAL HANDLE ENCASED IN PLASTIC.**
- Durable nylon cover ensures longevity and protection for the inner rope under heavy use and friction.
- Poly Propylene (PP) Inner Construction, to ensure no mess and fuss with use. PP also offers superior weight to the product.

BATTLE ROPE - LIGHT
SIZE: 15 m x 1.5"
50 ft x 1.5"

BATTLE ROPE - HEAVY
SIZE: 15 m x 2"
50 ft x 2"

ANCHOR
Steel anchor for rope

CLIMBING ROPE 7m
7 m long x 38 mm /
23 ft x 1.5"

TRAINING EQUIPMENT - STRENGTH & CONDITIONING

Compact Sled

Size: 31.1 inches L, 29 inches W x 30.7 inches H | 79.3 lb / 790 mm L, 740 mm W x 780 mm H | 36 kg

- Handles are tall enough to give flexibility in position, and hand options at shoulder width depending on the user heights
- Center plate stack to keep weights balanced
- Pull Bar at the front to allow a full range of backward dragging options
- Suitable for indoor & outdoor use

TRAINING EQUIPMENT - STRENGTH & CONDITIONING

Adjustable Bench

Size (footprint): 55.1 inches W x 25 inches H / 1400 mm W x 640 mm H

- Fully commercial quality
- Large foot print gives added stability under use
- Fully adjustable to give a range of incline options to target a larger muscle group area
- Commercial upholstery

TRAINING EQUIPMENT - STRENGTH & CONDITIONING

Dumbbells

The cast metal heads are encased in a thick and durable rubber coating to prevent chipping, protect your floors and reduce noise within your commercial gym.

- Handle is solid steel with an ergonomic design
- Handle is zinc coated for durability and rust prevention
- Heads are welded onto the handle and fixed with an additional locking pin for safety.
Cheaper alternatives will not have this locking pin feature.

DUMBBELL
2.2-22 lbs (pairs) /
1-10 kgs (pairs)
242.5 lbs / 110 kg per set
(small sizes)

DUMBBELL
27.5-40 lbs (pairs) /
12.5-20 kgs (pairs)
286.6 lbs / 130 kg per set

DUMBBELL HEAVY
49.5-66 lbs (pairs) /
22.5-30 kgs (pairs)
286.6 lbs / 130 kg per set

TRAINING EQUIPMENT - STRENGTH & CONDITIONING

Dumbbell Rack

Compact in design is the key - holds a massive 14 pairs of dumbbells from 2 lb / 1 kg through to 44 lb / 20 kg and in the restrictive space of an F45 Gym, this is what sets our dumbbell rack apart!

Size (footprint): 22.8 inches W x 21.6 inches H / 580 mm W x 550 mm H

- Steel frame construction
- Custom made for F45 equipment
- Compact storage, designed to store a pair of 2 lb / 1 kg through to 44 lb / 20 kg set of dumbbells in a vertical position
- Complies with F45 storage requirements

TRAINING EQUIPMENT - STRENGTH & CONDITIONING

Y-Bells

Set of 24 (8 of each weight)

Y-BELL
Small 4 kg / 9 lb

Y-BELL
Small 8 kg / 17 lb

Y-BELL
Small 12 kg / 26 lb

TRAINING EQUIPMENT - STRENGTH & CONDITIONING

F45 Bike

Size: 41.3 inches L, 23.6 inches W x 45.2 inches / 1050 mm L, 600 W x 1150 mm H

- Load capacity: 180 kg / 397 lb
- Machine weight: 70 kg / 154 lb
- Flywheel weight: 24 kg / 53 lb
- Stuffing: PU foam with synthetic leather

Testing Criteria & Results

Equipment has been tested to European standards			
Stationary Bike	General Safety Requirements Testing	EN ISO 20957-1:2013	PASS
Plyometric boxes	Additional Safety Requirements and Testing	BS EN ISO20957-10:2017	PASS

TRAINING EQUIPMENT - STRENGTH & CONDITIONING

Core Bags

- Pre weighted core bags, a dynamic piece of equipment that can be incorporated into all weight training movements.
- Composite high strength waterproof outer material with nylon webbing and unique internal design to give a balanced and concealed weight.

CORE BAGS
18 lbs / 8 kgs

CORE BAGS
26 lbs / 12 kgs

CORE BAGS
36 lbs / 16 kgs

CORE BAGS
44 lbs / 20 kgs

CORE BAGS
53 lbs / 24 kgs

TRAINING EQUIPMENT - STRENGTH & CONDITIONING

Sledge Hammers

Steel welded sledge hammer. Handle is completely welded to the top section - will never come off.

- Solid one-piece design
- Suitable for commercial usage
- Kurling on the base gives grip to the user to ensure it does not slip out during use

SLEDGE HAMMER 11 lb / 5 kg

SLEDGE HAMMER 22 lb / 10 kg

SLEDGE HAMMER 33 lb / 15 kg

MMA Gloves (pair)

Synthetic MMA gloves - F45 branded.
(9 x Junior sizing/9 x Senior sizing)

MMA Shield

Size: 34.6 inches x 15.7 inches x 5.9 inches / 880 mm x 400 mm x 150 mm
Vinyl shield - F45 branded

TRAINING EQUIPMENT - STRENGTH & CONDITIONING

Extension Band Kits

Included:

- 30 x bungee cords
- 15 x waist belts
- 15 x pair handles
- 30 x anchor straps

TRAINING EQUIPMENT - STRENGTH & CONDITIONING

Medicine Balls

Manufactured from Virgin Rubber in 4 different weight variations:

Slam Balls

Durable, sand-filled, non-bounce slam balls are ideal for all tossing and slamming style dynamic activities.

- Heavy duty rubber shell
- Pliable tacky surface for grip

TRAINING EQUIPMENT - STRENGTH & CONDITIONING

Medicine Balls Storage Rack

TRAINING EQUIPMENT - WEIGHTLIFTING

Pump Set with Rack

Pump Set: Poly Urethane commercial pump set with solid barbells and trigrip multipurpose plates, 1 set contains:

- 12 x 28*1300 mm / solid pump bars
- 34 x pairs of lock collars
- 24 pcs x 1.25 kg / 2.7 lb pump plates grey
- 24 pcs x 2.5 kg / 5 lb pump plates red
- 24 pcs x 5 kg / 11 lb pump plates blue
- 24 pcs x 10 kg / 22 lb pump plates black
- 1 x commercial storage rack to fit the above

TRAINING EQUIPMENT - WEIGHTLIFTING

Tri-Grip Poly Plates Pack

One Set Includes:

- 10 Pack - 441 lb / 200 kg
- Stainless steel rim bushing
- Eco-friendly and super durable, non-marking
- Tri-grip handle allowing use for group and circuit training
- All plates have 3 grip positions to make them suitable for all other fitness applications and purposes without the barbells
- Manufactured from high grade Commercial Polyurethane to ensure that they are durable and non-marking

TRAINING EQUIPMENT - BODY WEIGHT FITNESS

Suspension Trainer

One Set Includes:

Simple design that allows you to improve your endurance while significantly improving your core strength for a complete body workout. The unit comes standard with a door jam closure but this feature is obsolete within your F45 gym so please consider that these units need to either be mounted to a ceiling, wall or freestanding load bearing structure, anchor or pull up bar for use.

- Lockable feature to fix the strap in a central position for traditional weight training
- Commercial webbing straps that are fully adjustable
- PVC Handles
- Option to remove the fixing pin to allow the user a full range of ISO lateral body training

TRAINING EQUIPMENT - BODY WEIGHT FITNESS

Step Trainers

Dimensions: 26.3 inches L, 10.6 inches W x 3.9 inches H / 670 mm L, 270 mm W x 100 mm H
Adjusts from 3.9 inches / 100 mm to 5.9 inches / 150 mm for all heights and fitness levels.

Ab Straps

Can be mounted onto any standard chin up bar/rack.

TRAINING EQUIPMENT - BODY WEIGHT FITNESS

Plyometric Boxes (Set)

Set of 4 steel plyometric boxes with a non-slip black rubberised top surface. Each set consists of the following box heights: 12 inch, 18 inch, 24 inch and 30 inch / 304.5 mm, 457.2 mm, 609.6 mm and 762 mm and all of which are stackable for storage.

TRAINING EQUIPMENT - BODY WEIGHT FITNESS

Plyometric Boxes (Set)

3-in-1 Competition Plyo Box! The solution was to create a box constructed of foam that was heavy enough not to topple over yet soft enough not to cause injury. The EVA foam we have chosen is of a density of 90 degree hardness weighing in at 44 lbs / 20 kgs. With 3 different heights depending on what side you sit it on, this is literally 3 boxes in one!

Sizes are: 20 inches, 24 inches and 30 inches heights / 508 mm, 609.6 mm and 762 mm heights

TRAINING EQUIPMENT - AGILITY

Agility Ladder

No metal or PVC rungs in place so it provides no risk of a tripping hazard, making it very easy for the trainer to setup (simply roll it out) and it never requires any adjustment.

AB Wheels

Standard AB Wheel

Note: No branding available for this item.

TRAINING EQUIPMENT - AGILITY

Skipping Rope

DLX Speed Rope with ball bearing

Agility Cone

Agility Hurdle 5.9 inches / 150 mm

PVC moulded agility hurdles

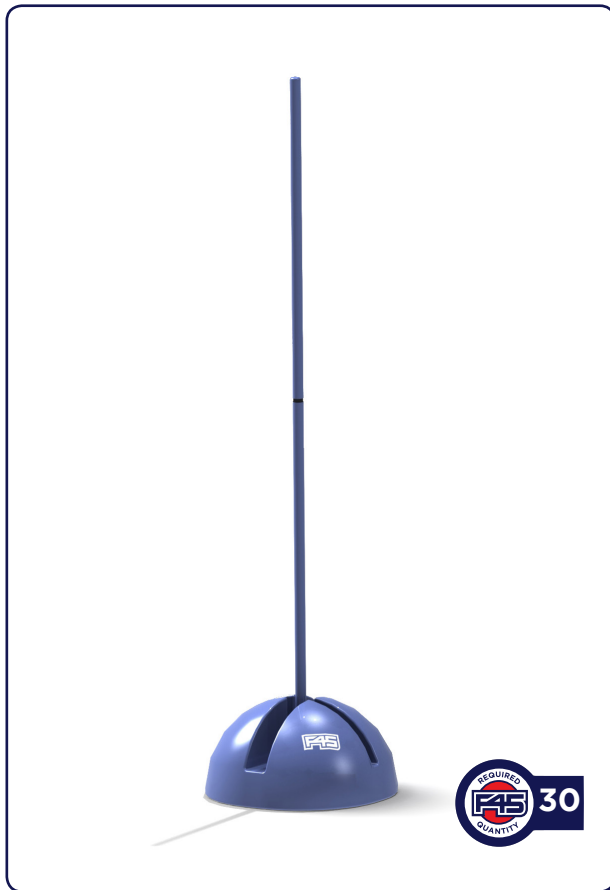

Agility Hurdle 11.8 inches / 300 mm

PVC moulded agility hurdles

TRAINING EQUIPMENT - AGILITY

Agility Pole Set

Agility Boxes

Total set of 8.

TRAINING EQUIPMENT - RECOVERY & MOBILITY

Resistance Bands

With any of your standard workout routines you can add resistance to increase strength and flexibility on a standard workout, to add challenge or assist you in the case where you are pushing your physical limits.

This product offers endless uses including stretching, resistance training, sprint training, assistance in chin ups and general resistance.

- Virgin Latex Rubber
- Layered for extra resistance

All bands are 0.15 inches/ 4 mm in thickness and 42" / 1066 mm in size to give an even uniformity among the bands, however as the width increases, the level of resistance also increases.

TRAINING EQUIPMENT - RECOVERY & MOBILITY

Balance Trainers

Swiss Balls

Anti-burst Swiss/gym ball

Size: 25.5 inches / 650 mm in diameter

Swiss Ball Stand

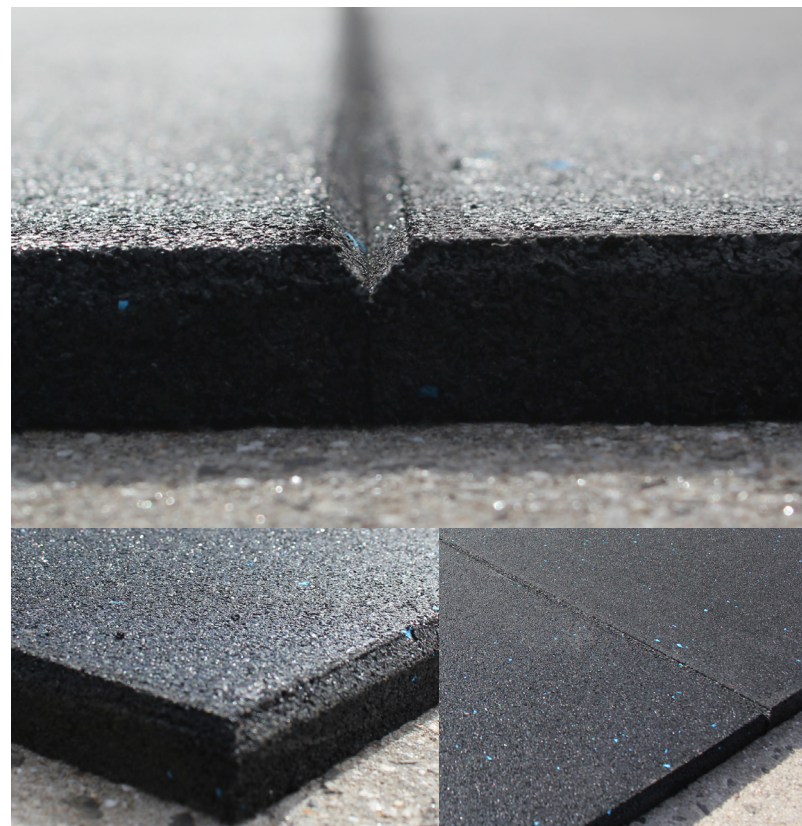

TRAINING EQUIPMENT - FLOORING

Rubber Gym Tile 15 mm

Our Rubber Gym Tile is one of the most popular mats being used in gym and fitness facilities all across the country. With a bevelled edge, non-slip surface, 800 kg/cbm density and constructed from recycled rubber tyres/blue EPDM fleck it's not hard to see why.

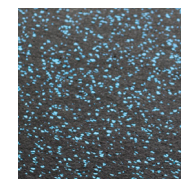

Our tiles have been constructed from quality materials and are bonded with a non-toxic adhesive and, therefore lack that signature smell that is noticeable after installation, allowing immediate use.

This impact absorbing mat is a quality product that will withstand heavy traffic areas, exposure to sweat and the dropping of heavy items without damaging the surface.

Products specs	
Weight	25.3 lbs / 11.5 kgs
Size	3.2 ft x 3.2 ft x 0.6 inches / 1 m x 1 m x 15 mm

Exercise Mats

10 x (183 x 61 x 4 mm) / rubber + latex + PU

- Thin polyurethane top layer for grip, thicker rubber/ latex layer cushion for hands and feet
- Anti-fungal additive in the mats to prevent mold from developing on your mat
- Each mat has a dead weight of 2kg for stability
- The polyurethane coating also has the unique anti-slip feature like no other mat in the market

TRAINING EQUIPMENT - FLOORING

Astroturf Track (Blue)

7.8 ft x 75.4 ft - 4.6 lbs/m / 2.4 m x 23 m - 2.1 kgs/m

0.59 inches / 15 mm High 100% U.V. Resistance Polyethylene Fibrillated Yarn, constructed to withstand sled work, heavy traffic flow and stop start running; blue in appearance with center lane marking! Includes water drainage and a unique low maintenance multidirectional weave that unlike other turfs does not require brushing or the need to infill with rubber and sand.

We do recommend that the turf be installed using artificial grass adhesive available from flooring supplies wholesalers or leading hardware stores or through the services of a contracted flooring service or installer. You can add the rolls end to end or side by side to get your desired area covered if you are after a larger arrangement of more than 18m in length.

Products specs

TRAINING EQUIPMENT - RACKS

Hybrid Chin Up Bars

23.6 inches off the wall, 23.6 inches height, 63 inches width /
600 mm off the wall, 600 mm height, 1600 mm width

Our chin up bar system is a commercial solution for any F45 Studio. Unique and symmetrical in design, they can be either wall or ceiling mounted within your studio.

Each bracket is constructed from industrial grade 0.2 inches / 5 mm thick steel and finished in a matte black commercial powdercoated finish. 63 inches / 1600 mm sections make it suitable for 2 people to chin up at the same time at shoulder width without interference and gives you plenty of room to mount your devices (Suspension trainer's and Ab slings).

Key features:

- Dual mounting options for ceiling or wall mounting
- Simple and easy assembly
- Laser cutting
- 0.2 inches / 5 mm commercial grade steel structure
- Full welds
- High Dyna bolts and bar fixing bolt provided
- All hardware included for installation to a load bearing concrete/brick wall or roof
- 453 kg / 1000 lb static load rating per chin up bar
- Powder coated in a textured black finish

Note: If affixing into timber please consult a licensed builder/contractor for professional installation.

***MOUNT ON ROOF OR WALL**

Station Markers

TOP UP PACK EQUIPMENT

Mini Bands

The Mini Band, commonly referred to as Glute Bands or Booty Bands, is a versatile resistance band that can be used within a workout or as a warm-up. Made from latex rubber and 550 mm / 21.6 inches in circumference, Mini Bands are designed to be worn above or below the knees to help activate your hips, glutes and hamstrings, and target areas that would normally not be trained under a regular exercise regime.

The resistance of the band will be determined by the thickness of the latex - from black (hard), blue (medium) and red (low).

Usage: Bridge, clam shells, plank jacks, leg lifts, leg raises, resisted lunges, resisted kickback, squats.

Warranty: 3 months: is only against manufacturing fault (Delamination of the latex).

Lifespan: 6 months: should be inspected prior to each and every use for cuts or sign of wear and tear.

Warnings: Product contains Latex; those with latex allergies should not use this product.

Bands are recommended to be used at a max. of 100% stretch

(e.g. 10.8 inches / 275 mm band should only be stretched to 21.6 inches / 550 mm); stretching beyond this limit is dangerous and not recommended.

When used on an abrasive surface bands can deteriorate quickly and snap; bands should be inspected regularly for any visible wear and tear. In case of visible damage, please remove from use and replace immediately.

TOP UP PACK EQUIPMENT

Revo Bars

The Revo Bars, commonly referred to as aerobic bars, weighted bars, torsion bars, or Revo Bars, is a great tool to add resistance to squats, presses, lunges and all other body weight training exercises to help build strength and stamina. Balance Bars are ideal for beginners, group exercise classes or outdoor use due to its compact nature.

Covered in a soft, non-slip, non-porous rubber, the Revo Bars has a comfortable grip for extended use and is perfect for rehab or mobility work. The ends of the bars are covered in a hard plastic which ensures longevity and avoids damage to the floor, and are colour coded for easy and quick weight identification.

The set consists of 5 x 9 lb / 4 kg Bars, 5 x 17 lb / 8 kg bars, 5 x 26.5 lb / 12 kg bars and 5 x 35 lb / 16 kg bars along with a purpose-built rack to store the bars vertically when not in use.

Usage: as a weight tool for squatting, lunging, cleaning, lifting, upright rows, and all dynamic weight training exercises

Warranty Length: 12 months

Lifespan: 36 Months

Warnings: Striking or dropping the bar onto a sharp surface will damage the outer casing which is not considered a valid warranty claim. Should not be used vertically on the end of the bar as this could possibly lead to injury if the bar slips on the floor.

TOP UP PACK EQUIPMENT

Balance Stick

The Balance Stick is a great functional tool to build core strength, coordination and stability. Secured to an anchor point, the uneven force of resistance on the stick allows you to perform a range of rotational and dynamic movements. Activate your upper body, lower body, and stimulate your entire core with simple every day movements.

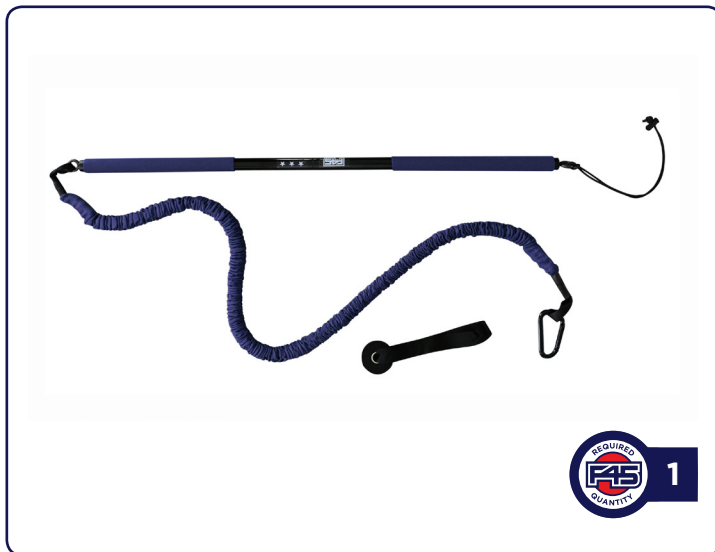

Balance Stick consists of 1 x high density band, 1 x Anchor, 1 x Bar

Usage: Chopping, rows, presses

Warranty Length: 12 months

Lifespan: 24 months (band replacement may be required)

Warning: Inspect the anchor, buckles and band prior to every use for signs of wear and tear prior to use. Ensure the anchor is correctly mounted.

TOP UP PACK EQUIPMENT

Core Discs

This simple but versatile Core Disc is the perfect addition to your exercise regime to target all muscle groups, specifically your abdominal strength. By placing your hands or feet on the discs and gliding the discs over the floor, you'll be able to perform a variety of exercises, all while building coordination, balance and core stability. Please consult with your instructor for any variations in exercises to suit your skill level.

Set consists of 2 x 7 inches / 180 mm diameter discs that are designed to slide on your F45 Sled track.

Usage: Glute activation, Lunges, squats, core activation, chest press, push ups, vertical running, jack knives, swings, monkey walks, abductors, stretching.

Warranty: 6 months

Lifespan: 36 months

Warnings: If at any point you start to feel pain this is the sign that your body has reached its limitation, please ensure that until a point that you are proficient in the use of this product that some body part whether it be your hand or your heel remain on the floor to limit the run of the sliding disc on your sled track.

CRATE BREAKDOWN

Your Responsibility

1. Inspect condition of all crates upon delivery.
2. Make note of any damage (visible) on the consignment note.
3. Please check the quantity of packages on the consignment matches the quantity of crates you sign for and receive.
4. Goods are crafted to ensure safe delivery, any damage must be reported within 7 days of receipt.
5. Damage beyond the 7 day period is the receiver's liability.
6. If you have additional flooring or rigs you will receive extra pallets on your consignment.

* The following item will arrive separately to the training equipment crates on pages 23-26

Concept 2 Model D Rower

Size: 8 ft W x 2 ft H / 2440 mm W x 610 mm H

Seat Height: 1.1 ft H / 360 mm H

Weight: 57 lb / 26 kg

Features

- Performance monitor
- Easily separated into two parts for easy storage
- Adjustable footrests and ergonomic handle
- Nickel plated chain
- Easy assembly

CONCEPT 2 WARRANTY

1. Date the machine needing repair, to ensure there is any warranty left that should be honored on the machine (http://www.concept2.com/files/pdf/us/indoor-rowers/Rower_Warranty.pdf)

The serial number contains three groups of numbers separated by dashes. The first group of numbers represents the date the unit was boxed, the second group represents the Concept 2 part number, and the third group represents the monitor serial number.

The digits following "Serial Number:" represent the serial number for the machine and the monitor. Date of boxing and the Concept 2 part number are also present on the label.

Model D: <https://www.concept2.com/service/indoor-rowers/model-d>

2. Gather the serial number and contact Concept 2 Customer Support team at c2techsupport@concept2.com. The team will most efficiently diagnose any issues with the machine and offer either a solution or replacement parts as necessary. If at any point you are unable to get the answers required please contact tracyd@concept2.com.

Marketing Pack

The Marketing Pack contains a variety of approved F45 branded merchandise.

This collateral is intended for marketing purposes. It should be used to leverage promotional initiatives and gifted to members as a value add.

Ways to utilise the Marketing Pack merchandise include:

- Foundation member packs and welcome packs for new members on-going
- Rewards for member referrals
- Prizing for in-studio competitions and achievements
- Giveaways at community events and activations
- Gifting to studio ambassadors and community influencers
